

PHP Developer Internship

Dayton, OH

Company Overview

Virtual Nerd offers online tutoring in math and science to middle and high school students. Our patent-pending Dynamic Whiteboard (DWb) allows students to interact with our instructional videos so they can get help whenever and as much as they need. Students benefit from the ability to choose their learning path and pace. Virtual Nerd is deeply committed to supporting individualized needs of students by offering high quality video content presented in our DWb. The combination of our video content and instructional platform provides each student with a truly unique and personalized learning experience. Even as an early-stage start-up company, we have received accolades and acknowledgements from the education industry & major media outlets including: BBC, NY Times, Pearson, Blackboard and SIIA.
