

## **Nursing Learning Labs**

Welcome to the Nursing Learning Labs. Our mission is to maximize student learning by supporting knowledge and skills acquisition. We provide state of the art labs and resources to assist you in reaching your goals.

There are five nursing labs, all of which include classroom space. Two nursing labs, 3313 and 3333, are designated for skills practice and are staffed by professional RNs for guidance and supervision. These rooms are equipped with hospital beds, mannequins, and equipment for practicing all required skills. To further facilitate practice, these labs have a laptop computer station at which you can practice skills which using the NSG 123 CD. Dosage calculation practice sheets are also available in these labs. Open hours are posted outside the rooms, on the nursing web site, and in the Angel Student Community.

Labs 3231 and 14-307 are specially equipped human patient simulation labs designed to offer interactive learning methodologies incorporating state of the art technologies. Lab 14-307 is a shared resource, available to other departments in the Life and health Sciences division. Labs 1015 and 3322 are equipped with hospital beds and mannequins and are available for performance evaluations and classes.

Nursing Department software, CDs, DVDs, videos, and reference texts are housed in the Sinclair Library. The Library will be aware of your transfer status, but you will be asked to show your Tartan card. The librarians are knowledgeable about nursing student resource requirements so please don't hesitate to ask for assistance. Further instructions for required and supplemental resources can be found in your course LRP or the Angel Student Community site. The college Teleports in rooms 13-223 and 14-109 provide access to the internet, printers, and limited nursing software. Please check the Teleport website for hours of operation:

<http://www.sinclair.edu/technology/labs/ITLabs/>

The Nursing Learning Lab maintains a website at:

<http://www.sinclair.edu/academics/alh/departments/nsg/lab/index.cfm>

At this site, lab hours, Teleport software availability, and directions for accessing on-line software can be found. In addition, the site has math tutorial access, math practice sheets, and the classroom schedule for the first day of the quarter.

Feel free to drop in on lab personnel if you have questions or need assistance. We are here to help you be successful in the Sinclair Nursing Program!
