

Resources

As a nursing student at Sinclair Community College, you have access to all services and resources of the College. This includes the Library in the lower level of Building 7 (with a Starbucks!), Academic Advisors in room 11346, the Nursing ILP (Individualized Learning Plan) Counselor in 10424, the Teleports, Financial Aid Office, Sinclair Bookstore, the Tartan Marketplace and all of its satellites, Student Services and many, many more.

Obtain a Student Services Directory from the Student Services office in Building 10 for a complete list of College services.

Read the following pages related to the resources you will be using in the Nursing Program. These include the Learning Resource Packet for each course, ANGEL, the Nursing Learning Labs. Another resource, the Sinclair Skill's CD will be discussed under core NSG courses.

You can access the nursing website by going to:

www.sinclair.edu

Click on academic program, then Nursing, then Degrees, then "Visit the Nursing Web site".

At this site you can find information about hospitals, portfolio classes, and under student information you can find nursing process tools, community family tools, etc.

Of course, Nursing faculty and staff members are your most valuable resources. Never wonder, always ask your questions.
