The **Math Lab**, located in Building 1, Room 315, provides a wide variety of services to help students enrolled in MAT courses, and consists of two study areas.

The lab area is mainly for self-study using computer programs, tutorial videos, practice tests, worksheets, and other resources. Students are assisted by friendly and able Lab staff.

The help room area is staffed with both faculty and student tutors available for specific questions and quick help on a walk-in basis. Tutor schedules are posted on the Lab web site:
