Professor Russell L. Moubray commenced his affiliation with Sinclair. Community College in 1965 and was a productive and conscientious faculty member in the Engineering Technologies Division for twenty years, until his retirement in 1985.

During his tenure he contributed extensively to the development and growth of his division and to the College. His activities, in part, included the structuring and implementation of the original curriculum for the Drafting and Design Technology Program. He also served nine years as chairperson of the Drafting and Design Technology Department.

Mr. Moubray played an active role in promoting as well as in the acquisition of the instructional components that enabled the teaching of computer assisted drafting. He was held in high regard by his colleagues and his students alike. A colleague comment serves to characterize this sentiment by indicating that --- Russ was an inspiration to me because he maintained a positive, professional attitude toward his work. He was always well prepared.

In addition to his academic endeavors, Mr. Moubray was also interested and involved in College related activities. In this regard he played an active role in Faculty Senate and served as its president for one year.

Professor Moubray's dedication to Sinclair Community College and the many contributions he made to his students, his colleagues and to the community during his twenty years of faculty service is certainly worthy of recognition and high praise. It further establishes him as a most worthy candidate for receipt of emeritus honors.
