2018 Scholarships
The Sinclair Community College Foundation is a 501(c)(3) tax exempt organization established in 1969 to provide funding for student and college needs not otherwise covered by other means of financial assistance.

Through student scholarships and program support, the Sinclair Foundation fulfills its mission: to ensure that higher education opportunities are easily accessible. In 2016, students were provided with $899,313 in scholarships. These scholarships and program funding efforts are made possible by individual and corporate donors who have given gifts to the Sinclair Foundation. This ongoing, generous support makes it possible for us to assist greater numbers of students in achieving their dreams of a college education.

Thanks to the continuing support of the Foundation, Sinclair remains one of the nation’s leading community colleges, which makes our community an even more desirable place to live and work.

PAYING FOR EDUCATION

One of the most valuable benefits of a Sinclair education is its affordable tuition. The money that you save while attending Sinclair can provide you the means to explore even more options as you continue your education. There are many ways that you can choose to pay for your education. Sinclair offers financial aid through federal, state and private programs in the form of scholarships, grants, work-study and loans. Last year 46.5% percent of our students benefited from this aid. Programs are available for both full- and part-time study. Sinclair also offers the FACTS Payment Plan for students who are unable to pay their bill all at once.

SCHOLARSHIPS
Scholarships should be the first source of aid that you look to for funding your college career because they do not have to be paid back. Sinclair awarded at least one Foundation scholarship to 1,548 students in 2017. They may be given to students who show potential for excellence in a certain subject or field of study. Merit based scholarships are awarded based upon academic achievement. Financial need, group affiliations, community involvement and other criteria may be considered for non-merit scholarships.

High School Merit Scholarships are offered each year to high school seniors planning to enroll at Sinclair in the fall semester after graduation. They range in amount from $2,000-$3,000 per year and include the following awards for Montgomery County residents: Presidential Scholarship (3.5 minimum high school GPA required) and the Virginia McNeal Scholarship (3.0 minimum high school GPA required). A Regional Scholarship is also being offered to non-Montgomery County residents (3.0 minimum high school GPA required). Further information regarding those scholarships can be found at www.sinclair.edu/scholarships.

GRANTS
Sinclair students who demonstrate a financial need may be eligible for a grant which will not need to be paid back. We strongly recommend ALL students apply for Federal Financial Aid by completing the free Application for Federal Student Aid (FAFSA).

Federal PELL grants are available for students who exhibit financial need and who are registered for at least one valid course. A federal formula is used to determine the grant amount which ranged between $606 and $5,950 for the 2017-2018 academic year. Federal Supplemental Educational Opportunity Grants (FSEOG) may be other options for Sinclair students who qualify and apply for the FAFSA early.

The Sinclair Financial Aid Office can also provide you with information about specialized grant programs. They can be reached at (937) 512-3000.

WORK STUDY PROGRAMS
Some Sinclair students may be eligible for government funded work-study programs. These programs provide need-based employment to help students meet education costs and supplement their income. They allow students to work part-time on campus or with an approved off-campus employer. Students who are interested in work-study can indicate this on their FAFSA, and those who are eligible for work-study will see this information on their Sinclair financial aid package.
STUDENT LOANS
Sinclair students whose financial aid needs cannot be met through scholarships, grants or work-study have other loan options to consider. This money will need to be paid back.

Federal Direct Student Loans are available for students enrolled for at least six credit hours per semester. Depending on need, the loan will be subsidized (interest paid by the federal government while the student is attending school) or unsubsidized (interest begins accruing when the loan is paid out). Interest on federal student loans may be tax deductible. Loans are disbursed directly to Sinclair.

Federal Parent PLUS Loans may be available to parents of dependent students who are enrolled for at least six hours per semester. A credit check is required for this loan. If you apply for and are denied a Federal Parent PLUS loan due to the credit check, the amount the student can borrow through an unsubsidized Stafford Loan may increase. The maximum amount a parent can borrow is the student’s cost of attendance minus other financial aid. PLUS loans are disbursed directly to Sinclair.

TAX CREDITS
There is an opportunity for families to claim up to $2,500 in tuition and fees paid during the calendar year when they file taxes the following year. This can be done as a tax credit through the American Opportunity Tax Credit.

Have questions about which options are right for you? Be sure to contact the Financial Aid Office for more information about the financial aid options available through Sinclair at (937) 512-3000.

COLLEGE SCHOLARSHIPS SUPPORTED BY THE FOUNDATION
A portion of the Sinclair Foundation’s general endowment also supports the college board of trustee’s established scholarships. In 2017, 611 students received scholarships totaling more than $515,412 from support provided by the Sinclair Foundation.

Sinclair Foundation scholarships may be available for students who demonstrate financial need or who meet other eligibility criteria. Whether you are a star athlete, a great debater or an active community volunteer, there may be a Sinclair Foundation scholarship for you. Students may earn scholarships for many reasons including academic achievement, group affiliation or participation, ethnicity and more. Many of Sinclair’s departments also offer scholarships for students enrolled in a particular field of study.

This guide is designed to provide you additional information about the many Foundation scholarships available at Sinclair including those for part-time, full-time and general study. Be sure to carefully review the eligibility criteria to identify the scholarships that best meet your needs.
How to Apply

Apply Using Sinclair’s Online Scholarship Application at https://sinclair.academicworks.com/.

Online Scholarship Application
Once you have filled out your scholarship applications, continue to check www.sinclair.edu/scholarships during the application period to check on the status of your applications!

Before You Apply

- Make sure that you have completed Sinclair’s Admissions Application and have an active student record in Sinclair’s records. You can file an application at https://apply.sinclair.edu/
- Complete the Free Application for Federal Student Aid (FAFSA), which is the financial aid application, for the academic year in which you are applying for aid at www.fafsa.ed.gov.
  - You should still complete a FAFSA if you are not eligible for federal financial aid (Pell Grant and loans) because many Sinclair scholarships require that students file their FAFSA to be able to determine student income levels and financial need.

Register for your classes before the scholarship cycle is closed. Sinclair’s Online Scholarship System application dates are:

- Fall Semester: June 1–30
- Spring Semester: November 1–30
- Summer Semester: March 1–30

- Many scholarships require a certain enrollment level (full-time, half-time, etc.).
- Prepare your responses to the following two (2) free-form essay questions:
  - 1. Describe your educational and career goals, and
  - 2. Discuss your extracurricular activities, community service, and volunteer activities.
- Know your academic plans; you may need to have a declared program and know what degree/certificate you are seeking

Helpful Hints

- You will be asked to use your Sinclair username (firstname.lastname) and create a password for the scholarship system. If you have trouble remembering your username and/or password, click on the following link to find your username and/or password: http://my.sinclair.edu
• Sinclair’s new Online Scholarship Application allows students to be automatically matched to certain scholarships, but you may also be asked to click “Apply” for others.
  o Check the eligibility criteria listed for each scholarship and apply for as many scholarships as you are eligible for to give you the best chance of winning a scholarship.
• Most scholarships are non-refundable, meaning that you will not receive a refund check from them if you have leftover scholarship monies after your tuition and/or books are paid for. Not all scholarships pay for books.
• Many scholarships will only pay out if students have charges left over after the Federal Pell Grant has already paid out in full. Pell Grant-eligible students may not be awarded certain scholarships if their Pell Grant is already enough to pay for their tuition, books, and fees for that semester.

For questions, contact the Financial Aid office at (937) 512-3000.

- Tech Prep
- Choose Ohio First

Donor Information

Scholarships motivate today’s students and tomorrow’s leaders.

Each year at commencement, Sinclair graduates proudly walk across the stage to receive their degrees. Many of them attribute their success in part to the scholarship support they received through funds raised by the Sinclair Foundation. Scholarships transform dreams to reality, support ability and talent, and offer rewards for determination, vision and hard work.

The majority of the scholarships listed in this guidebook have been made possible through the generosity of private contributions to the Sinclair Foundation. If you are interested in establishing a scholarship or making a donation, contact the Sinclair Foundation at (937) 512-2510 or www.Sinclair.edu/foundation.

Questions to consider when establishing a scholarship:

- **Expendable or Endowed Scholarship?** - Expendable scholarships are used on an annual basis for merit or need-based awards until the fund is depleted. When establishing an endowed scholarship, the principal will be invested in perpetuity. Interest income generated by the principal will be used to fund scholarships each year. A minimum of $20,000 is required to establish an endowed scholarship.
- **Merit- or Need- Based?** - A merit scholarship recognizes and fosters high academic standards. Need-based scholarships are awarded based on the financial status of the deserving student. Many scholarships are both merit and need-based.
- **New or Continuing Student?** - You may choose to award your scholarship to a student based on his or her high school record or on academic and/or co-curricular performance while at Sinclair. Criteria for the awards will be based on your preferences.
- **Specific Department or Field of Study?** - Current, Sinclair offers more than 240 degree and certificate programs in career fields. The Sinclair Foundation will work with you to identify opportunities and establish scholarship criteria that best exemplifies your interests as a donor.
- **Not sure?** - Donations to the General Scholarship Fund will allow Sinclair to meet the most pressing needs each term.

*Sinclair Foundation representatives will help you realize your philanthropy objectives. Please call (937) 512-2510 for more information, without obligation.*
